Work Experience

Zhejiang Media Group Interaction Design Intern

SEP 2025 – NOV 2025 | HANGZHOU, CHINA

- Redesigned visual layouts and content structures for web and mobile media platforms to improve readability.
- Produced motion graphics, image assets, and short-form video content for cross-platform communication.
- Adapted editorial content into audience-oriented visual formats for multimedia storytelling.

Hongkang Information Technology UX Design Intern

JUL 2024 – SEP 2024 | HANGZHOU, CHINA

- Optimized UX flows for enterprise printing, scanning, and document-management systems.
- Mapped user workflows and redesigned key interface steps to improve task clarity.
- Structured information architecture for document classification, search, and retrieval.

Freelance Designer / Independent Creator

JAN 2022 – PRESENT

- Created 3D visualizations, motion assets, and digital models for product and spatial design projects.
- Designed interactive installations and physical prototypes using Blender, Arduino, and 3D printing.
- Produced Blender animations, digital models, and 3D-printed prototypes for creative technology projects.

Education
